

Intermediate Coding with option to take Coding Exam Great Wolf Lodge, Grapevine (August 19-20, 2010)

INTERMEDIATE CODING

With Option to take Coding Certification Exam at end of Seminar*

Class will include New Codes effective 10/1/10

Think you have the basics down pat? We start with a quick overview of fundamental coding skills and, then, progress to coding in PPS, with special attention to coding the case mix diagnoses appropriately. Those who code accurately shouldn't miss out on the case mix points that less skilled coders may miss nor be accused of upcoding. This class will provide plenty of opportunity to try out your skills in coding common home care scenarios within the PPS Refinement arena, along with more complex scenarios. Application of the official guidance is the name of the game. Find out how diagnoses affect your outcomes and discuss those diagnoses causing problems in medical review. This seminar is a good preparatory for taking the HCS-D exam, which will be provided.

Intermediate Coding provides **9.75 nursing contact hours; .975 PT contact hours; and 9.75 clock hours** for Administrators/Alternates; **10 CEs** toward fulfilling the HCS-D Certification maintenance requirements.

This continuing nursing education activity was approved by the Texas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
